

# Cost/Savings Calculator (1/3)

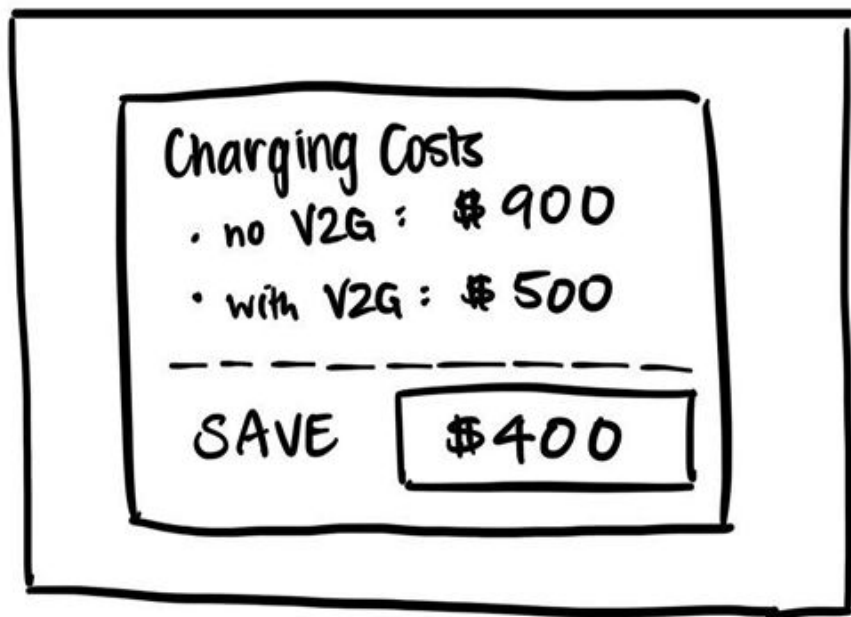

1) First, you choose which days and hours of the week you would be open to participating in V2G.

Create a Schedule	
Days of Week	Hours
<input checked="" type="checkbox"/> Monday	12am ↔ 6am
<input checked="" type="checkbox"/> Tuesday	6pm ↔ 4am
<input checked="" type="checkbox"/> Wednesday	6pm ↔ 4am
⋮	⋮

## Cost/Savings Calculator (2/3)

2) Based on your V2G availability, you get estimates of how much charging would cost and how much you would earn from V2G.

You can then compare how much V2G will help you save based on how often you participate.

## Cost/Savings Calculator (3/3)

**3)** By getting an estimate of how much you save from participating in V2G, you can decide if the benefit is worth it for you.
