

# Payoff Estimator (1/4)

1) First, you choose a V2G schedule you are interested in following.

Choose a V2G Schedule

MTWTF, 6-9 P.M.

\$\$ savings/year

Sa, Sun, 6-9 P.M.

\$\$ savings/year

Every day, 6-9 P.M.

\$\$ savings/year

## Payoff Estimator (2/4)

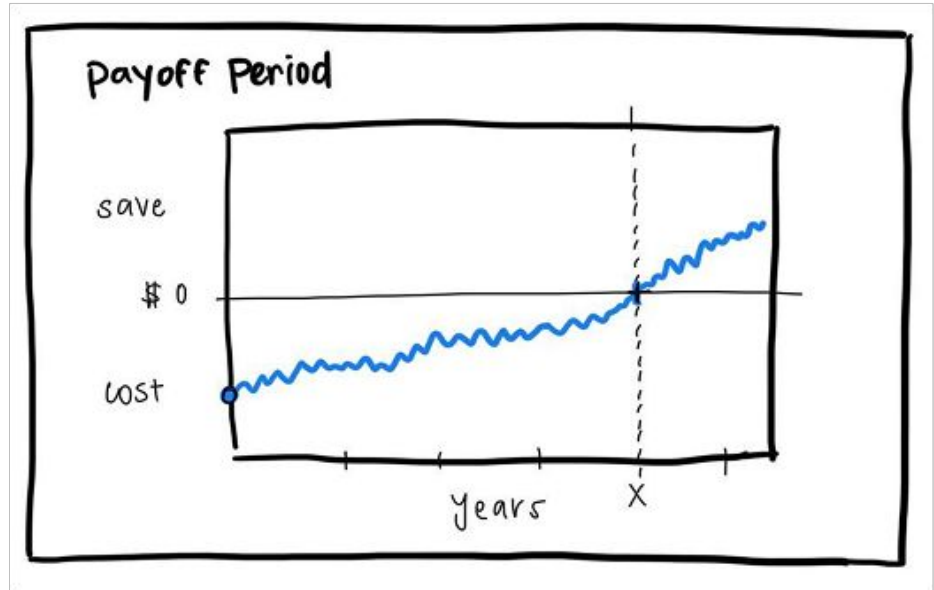

**2)** Then, enter your car's make and model. Compatible equipment installation packages and costs will then be shown to you.

A hand-drawn diagram illustrating a user interface for a car equipment estimator. It is enclosed in a large rectangular border. At the top, a box labeled "Vehicle Details" contains two input fields: "Make" and "Model". A downward-pointing arrow is positioned below this box. Below the arrow, the text "Compatible Installation Packages:" is written. At the bottom, there is a table with two columns: "EQUIPMENT" and "\$ COST".

EQUIPMENT	\$ COST
-----------	---------

## Payoff Estimator (3/4)

**3)** Using the cost of this equipment installation package and the schedule you choose at the beginning, you will see a graph that estimates the amount of time before you pay off these initial equipment costs and start earning on V2G.

## Payoff Estimator (4/4)

**4)** You can get a better sense of how long you might need to participate before breaking even on installation costs and can decide whether that timeline would work for you.
